

YOUR SAFE PLACE FOR ENVIRONMENTALLY & SOCIALLY RESPONSIBLE MERCHANDISE

About Eco Promotional Products

Eco Promotional Products, Inc. (EPP) is the only, totally “green”, full line promotional products distributor in the Ad Specialties Industry (ASI). We are dedicated to supplying a full line of environmentally and socially responsible merchandise to all customers interested in sustainability and respecting our natural resources. We strive to assist our customers in projecting their brand and environmental goals while helping to reduce landfill usage.

In Eco Promotional Products’ efforts to assist our customers in making informed and responsible purchasing decisions, we have developed a family of icons to easily identify the environmentally friendly attributes of each product. These icons represent: Reusable, Recyclable, Recycled, Socially Compliant, Renewable Energy, Compostable, Organic, Biodegradable, and Made in USA. We research and vet our entire product offering to have at least one or more of these attributes.

EPP is both a Green America Gold Certified Business and a WBENC Certified Woman-Owned Business.

Defining Sustainable Product

- ✓ Good for people.
- ✓ Good for the planet.
- ✓ Good for future generations.
- ✓ Good for profit.

Our Mission

To provide a safe place for businesses and individuals to buy environmentally responsible promotional products; promote and prevent exhausting natural resources, pollution, landfill space and protect human rights; provide professional service in a timely matter at affordable prices.

If printing please print onto recycled paper.

YOUR SAFE PLACE FOR ENVIRONMENTALLY & SOCIALLY RESPONSIBLE MERCHANDISE

Sensible Choices from Eco Promotional Products

Reusable

Product or materials that can be used again and again, either for its original purpose or for an entirely new purpose.

Recyclable

Product has the ability to be recovered and diverted from the solid waste stream/landfill. Can be reused for another life.

Made in USA

Eco Promotional Products made in America helps the US economy and may involve less resources for transportation.

Recycled

Part or all of product's composition is made up of recovered pre or post consumer waste.

Biodegradable

Products have the ability to break down and decompose, safely by natural means.

Renewable Resource

Products using a resource that can naturally replenish itself over time and used again.

Energy Efficient

Product uses either less energy than conventional products or uses alternative sources of energy.

Compostable

Part or all of the product is compostable where municipal or professional composting facilities are utilized. This is also considered another form of "recycling".

Organic

Product materials were grown without pesticides or chemical additives, relying instead on methods with less ecological impact.

Socially Compliant

Eco Promotional Products suppliers who have gone through successful third-party certifications or corporate compliance audits. Or, at minimum, are able to quantify their commitment and adherence to best practices in global standards regarding fair labor practices.
